Lightspeed Classroom Student Screen Functions

See below concerning the above Student Screen Functions

1-Open Tabs

This will show you what tabs the student has open.

If you click on a tab it will force the student to see that tab.

If you click on the "X" it will close that tab (Arrow #5 points to the "X")

You can also use the functions on the right hand side to control this individual student.

The first icon allows you to share this student's screen with the rest of the class.

The second icon locks this student's screen.

The third icon unlocks this student's screen.

This fourth icon records the student's screen. This can be used to document student activity. Recordings are accessible in the Recordings tab (see #3 below)

2-Browsing History

Browsing History

|--|

Nothing. Nada. Zilch.

This tab will show the student's browsing history.

The default is today.

Use the date picker in the upper right hand corner to pick other dates.

3-Recordings

This will allow you to see any recordings of student activity.

<u>4-Send</u>
